PROFILE

I am a BCA graduate with a strong proficiency in Java, Spring Boot, and SQL. I have hands-on experience in web and backend development. I have successfully built multiple projects utilizing the Spring Framework, REST APIs, and MySQL. Currently, I am seeking a Java Developer or Backend Developer position to leverage my technical expertise in software development.

EDUCATION

BCA - Bachelor of Computer Applications | 2022 - 2025

DDB & KNG BCA College | **CGPA:8.4**

Higher Secondary Education (HSC) | 2022

Dipak Highschool Amreli | **Percent:70%**

Secondary Education (SSC) | 2020

Pragna School Amreli | **Percent:78.8%**

SKILLS

- **Languages:** Java, Python, C++, C
- **Databases:** SQL, MySQL, Oracle, JPA & Hibernate, JDBC
- **Frameworks:** Spring Boot, Spring MVC, Spring, REST APIs, Microservices
- **Tools:** Maven, Postman, Git & GitHub, Linux/Unix, Eclipse
- **Web Development:** HTML, CSS, JavaScript, React, PHP, Thymeleaf

PROJECTS

Online E-Learning Platform | Spring Boot, REST APIs, MYSQL | *Apr 2025*

- Designed a scalable Spring Boot-based e-learning system that allows students to access playlists and course learning, handling student account. Integrated REST APIs for dynamic content updates and improving data security by 40%.

Smart Contact Manager | Spring Boot, Spring Security, Thymeleaf, JPA | *Oct 2024* | [LINK](#)

- Built a full-stack contact management system enabling users to securely store, edit, and manage contacts. Optimized database queries in MySQL, reducing lookup times by 60%, and implemented Spring Security authentication, blocking 95% of unauthorized access attempts.

Expense Tracker | Java, Hibernate, Servlets, JSP, MYSQL | *Jul 2024* / [LINK](#)

- Developed a finance management system helping users track, analyze, and categorize expenses efficiently, reducing expense retrieval time by 30%. Successfully processed.

Tech Blog | Java, Servlets, JSP, MySQL, AJAX, jQuery | *May 2024* / [LINK](#)

- Created a content publishing platform for tech enthusiasts to write, share, and interact with blog posts. Integrated AJAX-based systems, increasing user engagement by 45%. Optimized the UI using Bootstrap and jQuery

Bank Management System | Java Swing, JDBC, MySQL | *Apr 2024* / [LINK](#)

- Engineered a secure banking system to manage user accounts, deposits, and transactions and PIN-based authentication, reducing fraud cases by 70%, and track financial activity.

CERTIFICATION

- Full Stack Development with Spring Frameworks
- 5 Rank of Java & Problem Solving [LINK](#)
